

McCue Corporation

CartStop RE

CartStopRE is great looking, but don't be fooled, its job is pure protection. The unique roller corner redirects impact energy by spinning away damaging blows from your expensive store fixtures. RE's roller corner also acts as a hinge, allowing it to be fitted in more positions and angles than any other rail system. And, because both sides are the same, CartStop RE is reversible for twice the life.

INNOVATIVE: The first fully-adjustable floor mounted bumper corner that rotates from 90° to 180° - allowing it to protect any shape fixture.

REMOVABLE: CartStop RE can be removed for easy floor cleaning.

SPEEDY INSTALL: Flange anchor system eliminates the need for messy adhesives or chemical resin. Just drill and hammer in the flange anchor /sleeve assembly. Job done.

Truly Green

- Polycarbonate bumper cover is 100% chlorine free (PVC free and Vinyl free) and is 100% recyclable. 
- Does not emit hazardous dioxins if incinerated during waste disposal.
- Aluminum rail, end caps and stainless steel legs are recyclable.
