**ELEVATE WAREHOUSE SAFETY WITH FORKLIFT  
TRAFFIC CONTROL**

# SAFESTOP FORKLIFT GATE

Meet **SafeStop ForkLift Gate**, a strong floor-mounted gate system that allows for temporary access within your facility, safely separating people and forklifts. This ergonomic, easy-to-deploy system utilizes a shock-assisted rail system so operators can open and close access to aisles and doorways with ease — keeping your people and facility safe.

## HOW IT **WORKS**

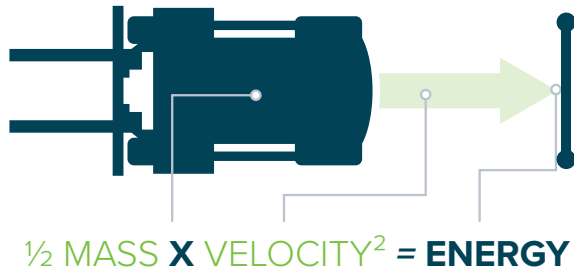

Engineered for ease of use with a spring-assisted design that ensures ergonomic opening and closing.
