

Pedestrian Barrier

Asset protection starts with your people.

Your most important barrier is the one separating your workforce from the four-ton forklift careening across your warehouse floor. Our fully modular system keeps your people safe and your business protected—with the most advanced protective system ever designed.

Energy Absorbing Impacts are directed along the rails & into the concrete

Complete Protection Post and rail system protects the entire area

Modular Design Accommodates any space, regardless of size

Pedestrian Barrier

How it works:

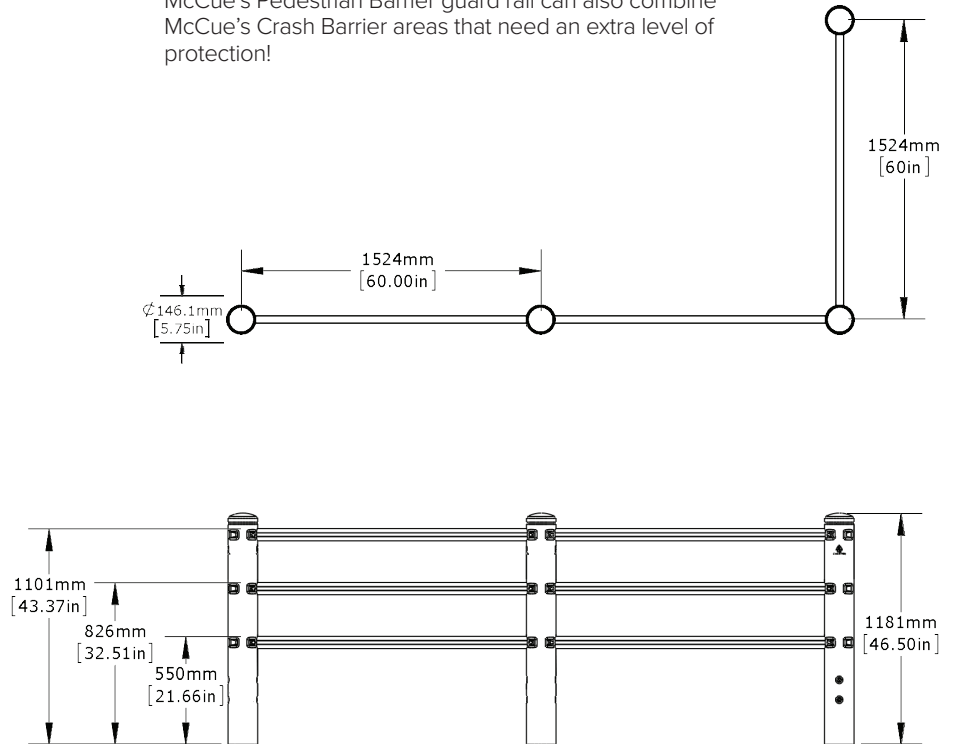

Energy absorbing design with shock-diffusing posts

Internal hardware eliminates catching & tripping points

Iron core is paired with an industrial rubber damper for strength & shock absorbcancy

Dimensions:

McCue's Pedestrian Barrier guard rail can also combine McCue's Crash Barrier areas that need an extra level of protection!

Pedestrian Barrier Mid Post

PB-K-MID-401

Materials: HDPE shell Mid Post, Ductile Iron core, rubber damper, anchor kit

Pedestrian Barrier End Post

PB-K-END-401

Materials: HDPE shell End Post, Ductile Iron core, rubber damper, anchor kit

Pedestrian Barrier Corner Post

PB-K-CNR-401

Materials: HDPE shell Corner Post, Ductile Iron core, rubber damper, anchor kit

Pedestrian Rail

PB-C-RAL-307

Material: Polyolefin, 58" (1.5 m) length
