

# Pedestrian Barrier with Crash Barrier

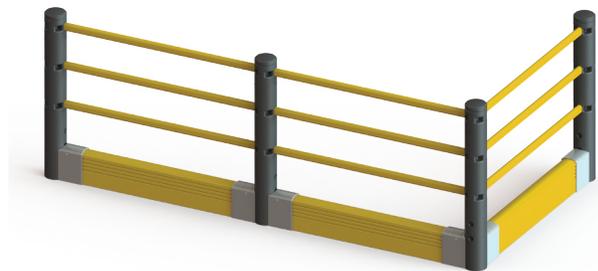

## Our modular design provides that extra level of protection.

Our easily installed Pedestrian Barrier system can combine with the Crash Barrier for areas that need an extra level of protection. Your most important barrier is the one separating your workforce from the forklift careening across your warehouse floor. Keep your people safe, and your business protected!

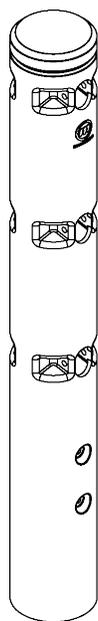

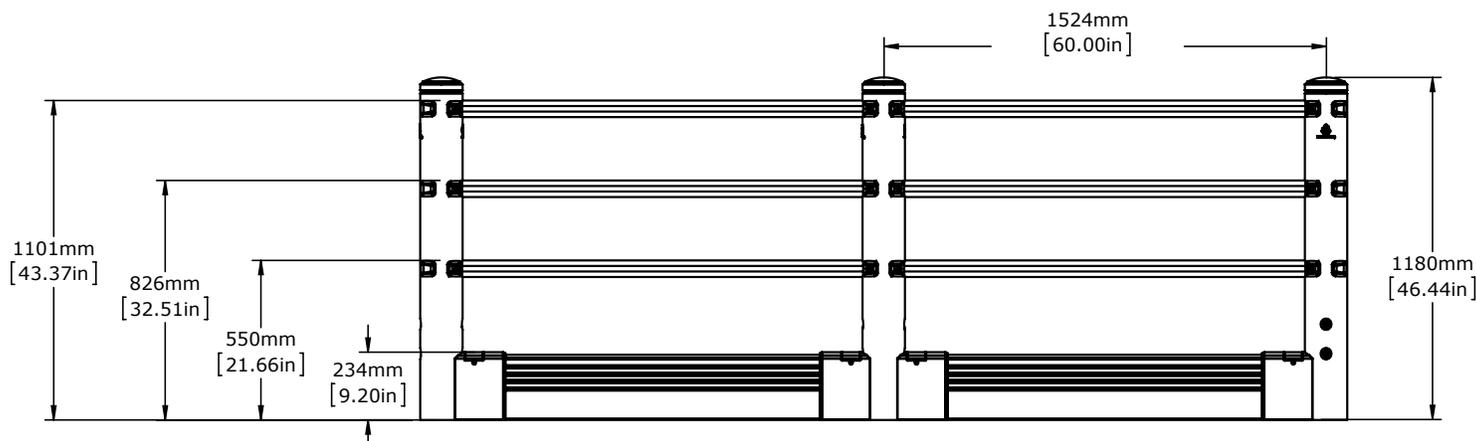

**High Visibility** Your best defense is being seen

**Complete Protection** Absorbs direct impacts, deflects glancing blows

**Modular Design** Quick & easy to install, accommodates any space

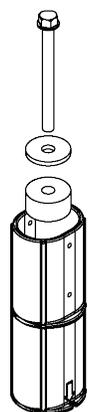

# Pedestrian Barrier with Crash Barrier

Energy absorbing design with shock-diffusing posts

Internal hardware eliminates catching & tripping points

Iron core is paired with an industrial rubber damper for strength & shock absorbency

## Pedestrian Barrier Mid Post

PB-K-MID-401

Materials: HDPE shell Mid Post, iron cast core, rubber damper, washer, anchor kit

## Pedestrian Barrier Corner Post

PB-K-CNR-401

Materials: HDPE shell Corner Post, iron cast core, rubber damper, washer, anchor kit

## Pedestrian Barrier End Post

PB-K-END-401

Materials: HDPE shell End Post, iron cast core, rubber damper, washer, anchor kit

## Pedestrian Rail

PB-C-RAL-307

Material: Polyolefin

## Crash Barrier Post End

CB-K-PSE-307

Materials: Iron Crash Barrier Post End cap, anchor kit

## Extrusion

CB-C-EXT-307

Material: Polyolefin
