

Shock-Absorbing Column Guard

Nothing slows down productivity like hitting a one-ton steel column.

The modular, shock-absorbing assembly installs securely and cushions columns, equipment and drivers from impacts. Protect the structural integrity of your facility and the financial integrity of your business.

Easy Installation With 2 adjustable straps, no special skills or equipment required.

Adjustable Fit Modular design fits a variety of column sizes.

Low Maintenance Hi-visibility plastic requires no welding or painting.

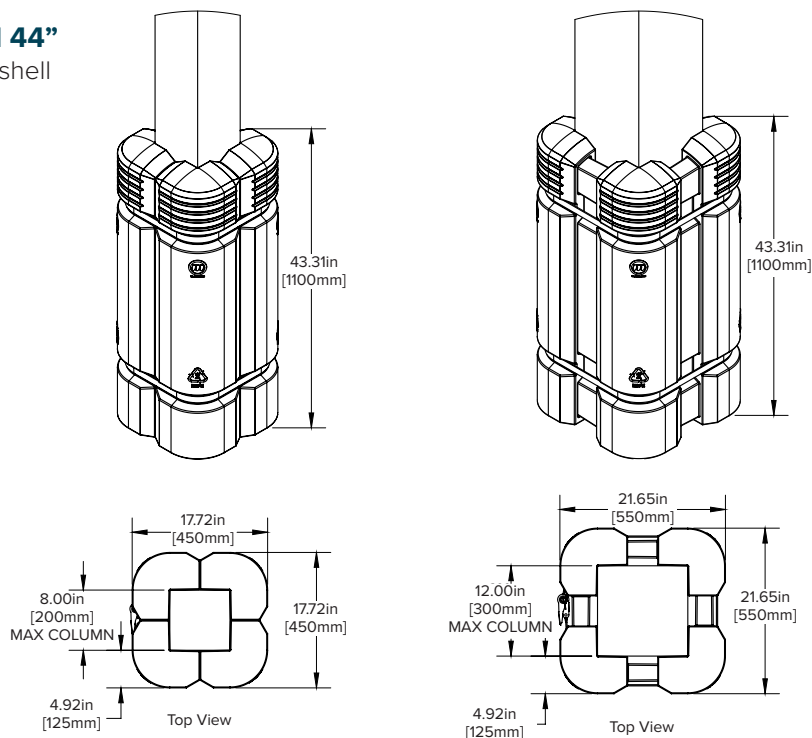

Shock-Absorbing Column Guard
