

# ColumnGuard Padding

## Nothing slows down productivity like hitting a one-ton steel column.

This hi-visibility padding installs securely and cushions columns, equipment and drivers from impacts. Protect the structural integrity of your facility and the financial integrity of your business.

**Easy Installation** With hook-and-loop fasteners, no special equipment is required for install

**Adjustable Fit** Modular design fits a variety of column sizes

**Low Maintenance** Hi-visibility material requires no welding or painting
